# BITFINITE STAKING

By staking your Bitfinite Coins, your computer becomes a dynamic node on the grid, processing and transmitting connections. It not only earns you extra Bitfinite Coins at an APR of 8%, it also reinforces our grid and security.

Staking requires the coins to be held in your desktop QT wallet. This inspires people to take ownership of their finances rather than leaving their private keys in the hands of third party service

## STAKING RULES:

Minimum Coin staking age is 24hrs. Coins must be held in your QT wallet and coin age resets anytime coins are sent to another address. Once QT wallet is unlocked and staking resumes, it continues staking automatically until your wallet is unlocked.

## HOW TO STAKE:

- The Bitfinite QT wallet is installed on your computer.
- Send Bitfinite coins from Website to QT wallet
- Ensure you encrypt your wallet and make sure to remember your password.
- Unlock your wallet for staking only, enter your password and observe the green arrow at the bottom.

## ADVANCED STAKING FEATURE

By using this feature, which allows you to reserve a part of your Bitfinite coins in the staking wallet, the flexibility of spending the reserved coins is enabled while the balance continues staking.

# TRADING

Bitfinite Coins, after the ICO will be traded on our internal exchange, we will also list BFC on these External exchanges (Coinexchange, Livecoin, Cryptopia and Yobit) gradually.

To ensure liquidity, Price stability and Price appreciation, we have designed and will develop Market Making algorithms deployed and managed by our AI BOT trading software. This will ensure that massive price fluctuations are minimized and provide a core for steady price increase.

# BITFINITE LOTTERY

The Bitfinite Global anonymous blockchain Lottery with direct disbursements will aim to become the most popular and transparent blockchain based lottery.

We intend to build a favourable, fair and decentralized and transparent lottery platform. Part of the funds raised from the crowd sale of Bitfinite coins will be used to fund this project.

# BITFINITE MARKET PLACE

Our Bitfinite Market Place will link retailers and clients in an exceptional way. Our Prime Objective will be to remove mediators that severely hinder the ability of retailers to attract new customers. The platform will also help to encourage the business resourcefulness. The platform will provide users (clients) with the ability earn passive income through offer sharing, referrals and app usage.

The Bitfinite Market Place functions by offering promoters and retailers capability to launch their promotions, proposals, and contracts through the platform's application using Bitfinite coins. Users will be able to discover attractive offers on a geolocation based module and on a filtered basis and easily claim them. Users will also earn referral income for referring their friends and followers to the Bitfinite market place and retailers with discounts, promotions, gifts, and awesome rewards.

# INITIAL COIN OFFERING

Our Initial Coin Offering will help fund our Research and Development activities, engage in marketing campaigns that aim to make and increase our brand awareness and acceptance. The Immediate and long-term benefits of buying during the Crowd Sale includes short term gains of rapid price appreciation and long-term goal of wealth creation, and value addition to the holders.

Our ICO will Commence on the 18th December, 2017.
